New Active Nursing Research Studies as of 1/26/2021 since last report on 9/14/2020

Validation of an evidence-based, nurse-designed fall risk assessment tool
<p>The purpose of this study is to assess the validity, reliability, usability, and clarity of the ADAPT fall risk assessment tool, which was developed by Parkview nurses during Phase 1 of the Inpatient Falls Innovation Project.</p> <p>PI: Lindy Bilimek MSN, AGCNS-BC Contact: lindy.bilimek@parkview.com</p>
Evaluation of a COVID Mobility Team
<p>The objective of this study is to assess the impact of the COVID Mobility Team on patient outcomes for COVID positive and rule out patients. These teams focused on providing progressive upright mobility to these patients.</p> <p>PI: Kellie Girardot, MSN,RN Contact: kellie.girardot@parkview.com</p>
Safety and efficacy of enteral nutrition with COVID-19 patients in the prone position
<p>The purpose of this study is to assess the safety and efficacy of providing enteral nutrition for COVID-19 patients in the prone position.</p> <p>PI: Jan Powers PhD, RN, CCNS, CCRN, NE-BC, FCCM Contact: jan.powers@parkview.com</p>
Influence of Music Therapy on Length of Stay in Surgery Patient
<p>The goal of this study is to assess the efficacy and feasibility of music therapy sessions on pre-elective surgical patients for its impact on time to discharge in the outpatient setting.</p> <p>PI: Danielle Payne, MSN, BSBio, RN Contact: danielle.payne@parkview.com</p>
Enhancing patient bedside handoff communication using videoconferencing technology
<p>The goal of this study is to enhance communication, improve patient safety, and increase nurse and patient satisfaction by utilizing videoconferencing technology on Emergency Department patients being admitted to the Medical Surgical or Constant Care unit.</p> <p>PI: Alison Pershing, MSN, RN, CNOR Contact: alison.pershing@parkview.com</p>

Studies now closed/completed:

Retrospective Chart Review to Determine Effect of Continuous Glucose Monitoring on A1C Levels in Patients with Type II Diabetes (T2DM), Rachel Gabet BSN, RN, LDE

New Active Nursing Research Studies as of 1/26/2021 since last report on 9/14/2020

Outcomes with a Full-Service Mobility Impacting Program in Critically Ill Trauma Patients, Kellie Girardot MSN, RN

A Quantitative Study to Assess the Effect of Weighted Blanket Intervention for Pre-Surgical Anxiety and Pain and Post-Surgical Restlessness and Nausea in Planned Surgery Patients, Jaime Vinson BSN, RN, HN-BC
